The State Election.

From the best information we have received, we are of the opinion that the entire Republican State Ticket is elected.

This was expected by us, as previous to election no effort was made on the Democratic side, and we are therefore prepared for the mournful tidings. We have done

gallantly well, however, and but for enemies in camp, would have completely routed the enemy.

Had Brown, Kennebec, Oconto, Door and Manitowoc Counties, as well as portions of many other counties we know of, done their whole duty, Ben. Ferguson and the balance of our noble chivalry would have quelled the Badger ship of state for the next two years. Stick a pin there, and then "remember Lot's wife."

Well, in our sense, we're beaten, vanquished, scuppered; but we propose to make Republicans sing "Jordan" next time. Outagamie did her duty—that's one consolation; and we've got the Assembly—that's two consolations; and we've gained 12,000 in the State—that's three consolations; and we don't propose to feel very bad—that's consolation number four!

The blow which has been struck in South Carolina is not only gratifying to the loyal citizens throughout the land, but is also a move long needed and truly merited.

The hydra-headed, monster, nullification, first made its appearance in Charleston, during Jackson's Administration, and although crushed at that time, was not conquered.

It has been, like a festering sore, coming to a head ever since, and the election of Lincoln was made a hobby, by the Carolinians, to ride the Slave States from the Union.

It is true the South, as a people, had some cause for complaint against the North, but the wrongs she demanded against were insufficient to demand the treasonable position she assumed.

The moment the leaders in the South planted themselves on the platform of the formation of an independent government; the moment the secession forces were clothed with the semblance of law, in Columbia, S. C.; the moment the seizure of the U. S. forts, arsenals, munitions of war, and infinite, commenced—that moment the treason-breeders of the South

embraced the hollow hearted dogness of such men as Wendell Phillips, Lloyd Garrison, &c. In our opinion, this secession business was not the child of a day, but the deep study and careful preparation of months and years. The South was consequently in good condition to engage in bloody strife, while the government, having enjoyed the reign of tranquil peace for so long a time, was ill prepared to cope with a powerful enemy. But, thanks to the kind intervention of Providence, and the patriotic uprising of a free people, these things were not allowed to go on in silence.

Daylight began to appear; and now the whole country is illuminated with the campfires of law-abiding and Constitution-loving

throng of brave hearts and strong arms, willing and ready to pour out their heart's blood in defense of the land of their ancestors.

Beaufort is ours! Charleston and Savannah quake with fear! The whole South is enjoying an attack of sublime ague! The handwriting upon the walls of secession is assuming a bloody hue, and visions of future gibbets are the daily companions of Jeff. Davis & Co.

When Charleston is taken, Government should raise the place to the ground, and pronounce the doom of Sodom upon her disloyal inhabitants. The day of "swearing in" is gone by, and we hope are long to chronicle the day of righteous retribution.

Chas. Sumner has sent us a little nasty pamphlet, strongly urging the people to demand and compel the administration to make the present one of nigger emancipation. He has sent these pamphlets to Editors all over the country, modestly (?) giving them the privilege of copying it as editorial! We do hope the dirty thing will receive but little favor at the hands of the press, and that if noticed at all, it will receive the enigma of its fire-eating, fanatical sentiments deserve. Had we room we should like to give numerous extracts from it to show its virulence and treasonable tendencies. We content ourselves with one extract:

"The war must end one way or another. Justice must gain or lose by it. If slavery is to survive, justice must lose. If it is not better, have it killed, by the shortest cut. Ho! unsophisticated young American, to the rescue! Oceans of woe have been loaded over this nation about the danger of letting black people loose! Would to God there were some danger in it! They are entirely too safe for their own interests and ours."

If the perpetrator of such treachery is not a proper subject for Fort Warren, with other treason-breeders, then we are very much mistaken.

We are under obligations to Judge M. E. Lyman of Sturgeon Bay, Door County, for the returns from that county. Mr. Lyman's maj. has dwindled down to 129, notwithstanding the cheating, swindling, and buying resorted to by the opponents of Mr. Hudd. Oconto gives: Shawano, 473; Outagamie, 476; Pulaski, 576; Balsam, 176—making Mr. Hudd's majority in the district, 150! Oconto Pioneer please no-

to the editor of the Manitowoc Pilot, has been elected Clerk of the Court for that county. This is a merited compliment, and we thank him for it right off.

Jerry Crowley, he who drives the relay post in the Manitowoc Pilot, has been

elected Clerk of the Court for that county.

The Green Bay Advocate says the Democratic presses in that section support the "Union Ticket"! We are happy (on the Advocate's authority) to inform our readers that we have made the discovery of a Democratic paper in Brown county! Barnum should be informed of this modern wonder!

Genius, how the Oconto Pioneer taken down on the Motor, on the Senatorial question. It promises to be an "irrepressible" family quarrel. Sorry!

"How are the Mighty Fallen!"—Wm. H. Seward has been chosen County Superintendent of Oconto county.

The Press of Appleton have requested of

me a statement relative to the Water Pow-

er on Grand Chute Island, &c. The request,

coupled with numerous inquiries made

me by the citizens of Appleton, shew an in-

terest in the development of this great nat-

ural resources. Although many are in-

terested indirectly, but few are acquainted

with the nature of the Water Power, and

the value it is to Appleton.

I think I am not overrating when I say

that Appleton contains more wealth (espe-

cially undeveloped) in this one great re-

source, than any other inland town or city

in this State.
